

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works
Walter Denton, City Administrator
Date: May 2, 2005
Subject: Bids for Seven Hills Water Tower Site Grading

List of committees that have reviewed: Public Works Committee

Background: This item was not included in the City's FY-05 budget; however, it became apparent with the construction of the Quail Meadows Subdivision that the City had not adequately accounted for the drainage of our property and corrections were needed. The low bidder is T-N-T Excavating for a total of \$95,814.63 with Alternative 2 based on the unit prices submitted. There were four other bids submitted, ranging from \$103,340.64 to \$160,159.95. The engineer's estimate is \$105,000.

Legal Considerations, if any: Normal execution of contract concerns.

Budget Impact: This project will be paid for by deferring the Bunkum Road Water Main Replacement project (estimated cost of \$144,000) that was included in the FY05 approved water budget.

Staff Recommendation: Staff recommends that the Seven Hills Water Tower Site Grading be awarded to T-N-T Excavating for \$95,814.63 based on their unit price bid.
