Subject: RESOLUTION – Household Hazardous Waste Day Support

List of committees that have reviewed: None.

Background: St. Clair County Health Department is applying for a grant for the event. The County needs a municipality to support the event with space to conduct waste turn in and support staff to direct traffic and assist in collection. Staff has been working with the County to provide for the event in Community Park in either the late Fall of this year or next Spring.

Legal Considerations, if any: Use of City property to conduct the event and support of our employees.

Budget Impact: There will be some overtime for Public Works, Park, and Police employees involved in the operations of the day dependent upon Illinois Environmental Protection Agency support. The amount is not quantifiable at this time, but benefits of holding the event far outweigh costs to the City.

Staff recommendation: Staff recommends passage of the resolution supporting the grant application and the event.
