

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works and
Walter Denton, City Administrator
Date: November 7, 2005
Subject: ORDINANCE - Snow Routes

List of committees that have reviewed: Public Works.

Background: Staff presented a map showing existing and proposed snow routes in the City. Due to recent annexations, the City has approximately 6 more miles of road to designate as snow routes. A review of the map revealed some additional routes to be designated. With the changes, the City now has in excess of 40 miles of road that will be designated as snow routes of the 140 miles of roads in the City.

Legal Considerations, if any: Not applicable.

Budget Impact: The snow removal budget will have to be increased in the 2007 budget to account for the additional requirement.

Staff recommendation: Staff recommends Council pass an amendment to the existing ordinance to allow for inclusion of the new snow routes in the existing ordinance as discussed in Committee.
