

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works
Walter Denton, City Administrator
Date: January 3, 2006
Subject: RESOLUTION – Utility Agreement with IDOT, New Sanitary Sewer Line Under Route 50 for the Elm & Orchard Mine Subsidence Water and Sewer Replacement Project

List of committees that have reviewed: None

Background: The City of O'Fallon will reconstruct water and sewer mains in the Elm Street and Orchard Street area. The reconstruction is necessary to replace lines that were damaged during the mine subsidence event of 1999. IDOT has jurisdictional control of the Right-of-Way for Highway 50 in this location. This permit will allow the City to install a new sanitary sewer main under Highway 50, near the O'Fallon Lumber property.

Legal Considerations, if any: Normal concerns when engaging in construction.

Budget Impact: None, this is a no cost permit.

Staff recommendation: Staff recommends support of the utility permit with IDOT by allowing the Mayor to sign the permit.
