

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works
Walter Denton, City Administrator
Date: November 6, 2006
Subject: RESOLUTION - Agreement with Rhutasel and Associates for Investigation of First Street Sewers

List of committees that have reviewed: Public Works Committee.

Background: Staff requested a proposal by Rhutasel with subcontracting to Walden Technologies to clean, camera, and detail the sewerage system in a 42-acre area bounded by First Street on the north, 3rd Street on the south, Apple on the east and Westwood on the west. The area is believed to contain combined sewers that impose an unwanted and illegal load on our sanitary sewer system. The investigation should reveal sources of inflow and infiltration (I&I) and lead to a design for remediation.

Legal Considerations, if any: Normal contractual legal obligations for consulting services.

Budget Impact: The not to exceed value is \$38,500 and will be covered by professional services funding in the approved FY07 Sanitary Sewer Lines budget.

Staff recommendation: Staff recommends execution of the RESOLUTION to support the investigation.
