

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works
Walter Denton, City Administrator
Date: April 2, 2007
Subject: RESOLUTION – WWTP Disinfection Bid

List of Committees that have reviewed: Public Works.

Background: Disinfection equipment is needed at the plant to meet a new requirement of our IEPA discharge permit. HMG Engineering produced a design to meet that requirement and the specifications and drawings were sent out for bid. Haier Plumbing of Okawville submitted the lowest of the three bids received. Their bid (\$45,000) was within \$1,000 of the engineer's estimate.

Legal Considerations, if any: None beyond normal contract concerns.

Budget Impact: Funding for this project will impact the sanitary sewer budget, but is a must pay and will be absorbed using funds for general maintenance.

Staff Recommendation: Accept the bid from Haier Plumbing for \$45,000.
