

CITY COUNCIL AGENDA ITEM

To: Mayor Graham and City Council
From: Ted Shekell, Planning Director
Walter Denton, City Administrator
Date: April 13, 2007
Subject: Special Event Permit – Lonestar Bike Night (MOTION)

List of committees that have reviewed: This request was received by the staff on Friday, April 13, 2007, so consequently it was not on the CD Committee's April 9 agenda for consideration or recommendation.

Background:

This applicant wants to hold this special event in conjunction with a promotion by Harley Frieze to celebrate the opening of their new O'Fallon facility, with the bikers riding to Lonestar from the Belleville facility for Bike Night. Lonestar proposes having a beer truck with draft beer sales and consumption outdoors in a section of their parking lot, which is shown on the attached diagram. The event is planned to be held on Thursday, April 26, 2007, from 6-10pm. They are also proposing holding these events every Thursday night from 6-10 pm, without the beer truck, and using the existing patio and indoor beer sales.

We would not recommend approving anything beyond the April 26, 2007, event until additional information could be obtained about the nature of the events. These can be discussed in a future CD meeting.

As a condition, the applicant will be required to obtain a permit through the State Liquor Commissioner's office for outside sale and consumption.

Legal Considerations, if any: None

Budget Impact: None

Staff Review: Police and Fire have been notified of the request, however, given the late time frame of the submission no recommendations have been made as of this writing.
