

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works
Walter Denton, City Administrator
Date: May 7, 2007
Subject: ORDINANCE – Stop Signs – Windsor Creek Subdivision

List of committees that have reviewed: None

Background: With the construction of the subdivision, four locations currently require stop signs for the streets listed in the ordinance change. This amendment to the stop sign ordinance will authorize installation and enforcement.

Legal Considerations, if any: None, traffic control per accepted standards.

Budget Impact: Minimal, as the subdivision was brought into the City before the change in the subdivision regulation making the developers responsible for regulatory signage, Public Works will need to install the signs. The Public Works budget has funding for the installation of the four stop signs.

Staff recommendation: Staff recommends passage of the ordinance amending the schedule for stop signs at the intersections within O'Fallon.
