

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works and
Walter Denton, City Administrator
Date: August 6, 2007
Subject: MOTION - Water Division Supplies

List of committees that have reviewed: This item has not been reviewed by Committee.

Background: On July 26, 2007, bids were received for Water Division supply requirements. The items covered included corporation stops, service saddles for 6" and 8" pipe, slotted meter tile, meter setters, meter box with frame and cover. The apparent low bidder Schulte Supply did not meet the specifications. Therefore, we are recommending the bid go to Midwest Municipal Supply, Inc.

Legal Considerations, if any: A letting of bids carries normal legal considerations for awarding material supply purchases.

Budget Impact: The total cost of supplies from the bidder is \$37,232.50. Money has been allocated for this purchase in the approved budget.

Staff recommendation: Staff recommends award to bidder, Midwest Municipal Supply, IL. The bid tabulation is attached.
