

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works
Walter Denton, City Administrator
Date: October 6, 2008
Subject: RESOLUTION – Milburn School Road Improvements, Phase 2 Design Proposal

List of committees that have reviewed: Public Works

Background: Rhutasel and Associates have submitted a design proposal for Phase 2 that has been approved by IDOT for funding under the Surface Transportation Program (STP) for CY2012. The reconstruction approved is for the Milburn School Road section from Pausch Road to Merriam Parkway. The IDOT managed funding will be supplemented by local MFT Funds. Design and construction engineering as proposed is not to exceed \$121,000.00. IDOT forms supported by a Council resolution must be submitted for approval of local MFT fund usage. The project will be for 2 lanes plus turn lanes at the intersections with the potential for a roundabout at Merriam Parkway. The City needs to move forward with the design as this would allow coordination of school district improvements to the roadway west of the Phase 2 section.

Legal Considerations, if any: None, beyond normal consideration when contracting for professional services.

Budget Impact: The design will be funded by local MFT Funds.

Staff recommendation: Staff recommends approval of the contract with Rhutasel and Associates, Inc in an amount not to exceed \$121,000.00.
