Background: The City has been awarded a grant to complete the conversion of our fixed and mobile radio equipment to the 800 MHz Interoperable system operated by St. Clair County. The County has developed a Memorandum of Understanding regarding compliance with FCC and system rules and regulations. The requirements of the MOU are reasonable and in keeping with best practices. A previous MOU executed between the two parties allows the City to access the system with no charge in exchange for placement of system infrastructure on City property. That agreement is mentioned in the new agreement.
