

## CITY COUNCIL AGENDA ITEMS

**To:** Mayor Graham and City Council  
**From:** Dennis Sullivan, Director of Engineering & Public Works  
Walter Denton, City Administrator  
**Date:** December 1, 2008  
**Subject:** RESOLUTION – Supplemental Authorization for Simmons Road Reconstruction

**List of committees that have reviewed:** Public Works

**Background:** IDOT has concluded from their ongoing audit of the completed Simmons Road project that the City spent MFT (motor fuel tax) funds in excess of authorizations on file and approved by IDOT. They have asked for a supplemental authorization from the City Council to close out their books on the project regarding engineering and right-of-way costs.

**Legal Considerations, if any:** None

**Budget Impact:** No additional funds are anticipated to be spent as a result of this authorization. This is an attempt to square the paperwork with MFT Funds spent already, appropriately, just beyond the existing authorization on file at IDOT.

**Staff recommendation:** Staff recommends approval of the IDOT Resolution in the amount of \$170,000.
