

CITY COUNCIL AGENDA ITEM

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Public Works
Walter Denton, City Administrator
Date: June 1, 2009
Subject: ORDINANCE – CPI Adjustment for Sewer Service Rates, October 2009

List of committees that have reviewed: Public Works

Background: During the last City Council meeting it was discussed to not adjust the sewer rates by the CPI (consumer price index adjustment for water and sewer) in October 2009, due to the sewer rate increase that was passed at that meeting.

Legal considerations, if any: None

Budget impact: The CPI increase for October was anticipated to be 7% based on tentative data received earlier this year.

Staff recommendation: None. This ordinance change proposal is a result of the consensus request by the Council at their last meeting.
