

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works
Walter Denton, City Administrator
Date: June 15, 2009
Subject: ORDINANCE – Stop Signs, Keck Ridge Subdivision

List of committees that have reviewed: Public Safety

Background: With the construction of the subdivision, but lacking housing on some streets, staff has held off placing stop signs at all locations requiring them. Five locations currently require stop signs for streets listed in this proposed ordinance change. An amendment to the stop sign ordinance will authorize enforcement by Police.

Legal Considerations, if any: None, traffic control per accepted standards.

Budget Impact: Minimal. The subdivision was brought into the City prior to the change in the subdivision regulation making the developers responsible for regulatory signage; so, the City will be responsible for sign place.

Staff recommendation: Staff recommends passage of the ordinance amendment.
