

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works
Walter Denton, City Administrator
Date: February 1, 2010
Subject: RESOLUTION – IDOT Local Agency Agreement for Federal Participation - Porter Road & Simmons Road Roundabout

List of committees that have reviewed: Public Works

Background: The Porter & Simmons Roundabout construction is supported by a federal Congestion Mitigation and Air Quality (CMAQ) grant. The design is complete, and right-of-way is being obtained. IDOT recently asked that a Local Agency Agreement for Federal Participation be signed by local officials to support the bidding process.

Legal Considerations, if any: None, beyond commitment for funding.

Budget Impact: Funding for the construction of the roundabout will come from Motor Fuel Tax (MFT) funds set aside for this project.

Staff Recommendation: Staff recommendation is that the Council pass the resolution supporting participation in the construction of the roundabout, federal share, \$320,000 and local share \$170,000.
