

CITY COUNCIL AGENDA ITEMS

To: Mayor Graham and City Council
From: Dennis Sullivan, Director of Engineering & Public Works
Walter Denton, City Administrator
Date: April 5, 2010
Subject: RESOLUTION – Letter of Understanding for IDOT Pavement Work Along I-64 Frontage Road, Venita Drive and Hwy 50 in O'Fallon

List of committees that have reviewed: None.

Background: IDOT has a project that they wish to execute this summer. The project is to mill existing paving materials and overlay pavements on the Frontage Road from Old Collinsville Road to Venita Drive, a portion of Venita Drive adjacent to Hwy 50, and Hwy 50 from Venita Drive to Eastgate Drive. IDOT wants to have in place prior to the construction a “Letter of Understanding” whereby O'Fallon commits to continue to maintain its City streets outside the edge of the project area.

Legal Considerations, if any: None, all work is to be carried out by IDOT.

Budget Impact: The estimated cost is \$2,800,000 including the portion of the Frontage Road (Salem Place) in Fairview Heights. All funding is by IDOT. No City funds are being requested.

Staff recommendation: Staff recommends approval of the basically symbolic agreement with the project scope.
