

## CITY COUNCIL AGENDA ITEM

**To:** Mayor Graham and City Council  
**From:** Dennis Sullivan, Director of Engineering & Public Works  
Walter Denton, City Administrator  
**Date:** June 7, 2010  
**Subject:** RESOLUTION –Sanitary Sewer Manhole Lining and Grouting Project

**List of committees that have reviewed:** Public Works

**Background:** Various sewer main manholes need lining or grouting around the section joints throughout the City's sanitary sewer system to stop the infiltration of groundwater into the sewer system which increase sewage pumping and treatment costs. Many of these manholes have had little work done to them since installation in the 1950s and earlier. The project as bid is to line 20 manholes with a fiberglass liner and grout 38 manholes.

**Legal Considerations, if any:** Normal execution of contract concerns.

**Budget Impact:** \$200,000 was set aside in the approved FY2011 Wastewater Operations Budget to fund this project.

**Staff recommendation:** Staff recommends execution of the RESOLUTION to support the awarding of the construction contract to the lowest qualified bidder, Walden Associated Technologies, Inc., for \$144,315.00. Based on the contractor's performance and availability additional work at the unit prices provided in their bid may be requested as over 400 manholes are known to need repair currently.
