

# Obernuefemann Road Reconstruction

Obernuefemann Road Reconstruction - Originally programmed for reconstruction in the summer of 2009, this project may be accomplished in the summer of 2008 due to difficulties encountered in the planned reconstruction of Old Collinsville Road in the summer of 2008. The section to be reconstructed is approximately 3,200-feet long. The new section will be two lanes wide with curbing and stormwater improvements. Turn lanes for a new intersection with Ogle Road on the north end and at the east entrance to the park will be provided.

Family Sports Park
