

## CITY COUNCIL AGENDA ITEMS

**To:** Mayor Graham and City Council  
**From:** Dennis Sullivan, Director of Public Works  
Walter Denton, City Administrator  
**Date:** March 3, 2014  
**Subject:** RESOLUTION – Millennia Professional Services of Illinois, Ltd. Proposal – Wesley Drive Storm Sewer Improvements Project

**List of committees that have reviewed:** Public Works.

**Background:** Millennia Professional Services of Illinois, LTD. (formally Hoelscher Engineering) prepared the design for the Wesley Culvert Replacement Project several years ago. At that time they collected information as did City staff on the stormwater system west of that project area on the failing stormwater system that extended to the Lakeshore Court area. Flooding of the Lakeshore Court/Wesley intersection in intense rains has long been a problem. This proposal is basically a Phase 2 of the previous project designed by Hoelscher Engineering. Accommodations in the previous project were made to easily incorporate this Phase 2 effort. Urgency to complete the remainder of the stormwater work there is now due to a road project slated for Wesley Drive in CY15.

**Legal Considerations, if any:** Normal legal considerations when obtaining professional services.

**Budget Impact:** Funding is being provided for the design and accomplishment in the FY15 Public Works Budget.

**Staff recommendation:** Staff recommends acceptance of the proposal from Millennia in the amount of \$22,500.00.
